however, able to establish beyond a doubt that Justice Lamar and Mr. Lehmann were conferring in . oom 224 with the Constitutionalist representatives. The meeting lasted exactly three

hours and fifteen minutes. Justice Lamar seemed extremely hopeful and in the best of spirits, but could not be induced to disclose any details regarding Suspends Tariff and Foreign the conference. The American delegates left at once for Niagara Falls, where they arrived at 8 o'clock. Justice Lamar communicated immediately with Washington over the private wire which has been set up between the White House and the Prospect House on the American side of Niagara Falls.

The Carranza representatives left for Washington almost immediately after any statement.

While the mediators had evidently intention of the American delegates to go to see the Carranzistas the report June 25. came as a complete surprise to Mexican delegates, who at a late hour to-night are unable to understand the reason for this move on the part of the Washington Government.

### Huerta's Envoys Angry. The members of the Mexican delega-

tion were amazed and evidently deeply grieved over this latest development. A feeling of gloom hangs over the Clifton House to-night and it is generally agreed that the last hour of the mediation conference is at hand, although no one believes that a solution of the Mexican problem has been found. The only explanation which the

American delegates would consent to

give regarding their voyage to Buffalo is contained in the following statement: "The American delegates have con-stantly found themselves in need of information as to persons under discussion in the 'conversations' and conferences here. In their desire to get this information the American delegates have for a considerable time been endeavoring to have a conference with the Constitutiondelegates thought that they had an op-portunity of getting that information if they went to Buffalo to-day, and with the consent of their Government they decided to make the attempt to secure it."

Senor Rabasa of the Mexican delegation made public this morning a despatch he received from Gen. Huerta, in

which the provisional President declared emphatically that former Senator Charles A. Towns was in no way connected with the Mexican Government and had never been authorized to speak as its counsel Mr. Towne has been quoted in press des-patches as announcing that he is counsel patches as announcing that he is counseld. It was deemed proper to do this so that Messrs. Lamar and Lehmann might be enabled to advise wisely and intelligently both with the mediators and with the President of the United States."

"Was the discussion restricted to any particular line, or did it bear on the question who would be a proper man for provi-States is the last card in the media- sional President of Mexico?" Mr. Douglas was asked.

"They did not go there to discuss any particular question or questions," Mr. Douglas said, "but to discuss the situation generally."

"Is it possible that this discussion in Buffalo may eventually lead to a triangular meeting between the American delegates, the Huerta delegates and the Wilson Government is now prepared to representatives of the Constitutionalists,

"While such an eventuality is of course possible, certainly no such thought was in contemplation by the parties. These gentlemen did not go to Buffalo that they might enter the mediation conferences indirectly when they have been excluded from entering them directly. When the figured prominently in the proceedings, statement is made that these gentlemen went to Buffalo to confer individually with the American representatives and nothing more the statement should be taken at par, for it is the simple truth

> The action of the local merchants in cornering the food market and thus rais-ing prices far above anything ever charged before has been most vexatious to the commanding General for several weeks. This affected not only foreigners in the city but also the American soldiers and

city but also the American soldiers and sailors who sought to improve their messes by purchases from their pay.

The goods concerned were the better quality of canned fruits, sugar, tea, dried fruits of all kinds as well as green vegetables. There was no question of a diminished supply, but of a combination and agreement by which prices were advanced uniformly. As the customs duties were too high for any independents to seek to enter the field, the merchants, Spanish, German and Mexican, had the market at their mercy.

An attempt to have the local Chamber of Commerce conduct an investigation and obtain concessions failed because the mer-

of Commerce conduct an investigation and obtain concessions failed because the merchants were the members of that body. They pretended to aid for a while, but in the end announced they could do nothing. In the meantime Gen. Funsion communicated with merchants in Galveston and other ports of the United States and obtained assurances that they would compared to the control of the tained assurances that they would com-pete if they were allowed the opportunity. It is said that a shipload of merchandise is now ready to leave Galveston. It is hoped that by June 25 there will be enough food in the market to break the combination.

The newspapers were authorized to print that the A B C mediators will conclude their labors with a plan acceptable to the PEACE SETTLEMENT United States and Mexico by the end of this week. The plan has been laid before the provisional Government and Esteva Rulz, the Foreign Minister, has expressed himself as satisfied with it.

It is officially reported that the Antilla landed a large supply of arms and ammu-nition, big guns and aeroplanes at Tam-pico. The announcement has been re-ceived with dissatisfaction, as it is the popular impression that the act was in contravention of the agreement of Secre-tary of State Bryan at Washington that no more war supplies were to be shipped from the United States to Mexico. Congress is now occupying itself only with industrial contracts. President

Huerta had a long conference with the President of the Chamber to-day, but the tople discussed was not divulged. The commission appointed to investigate the concession to Gens. Barranechea and Romero for a large tract of oil lands in Vera Cruz has reported unfavorably. The Brazilian Minister continues to investigate the case of Private Samuel Parks, reported to have been executed at Tejeria after he had ridden out of the American lines. The only testimony about the execution comes through Vera Cruz, and this is discredited by the Gov. ernment, which has promised to aid the Minister in every way.
